

# Enjoy the Journey

We are so pleased that you've become a mentor! As we mention in the curriculum materials, we hope that you will learn as much from this spiritual journey as the mom or mom-to-be you are visiting. Anytime God chooses to use us, we are the ones who receive the blessing. Isn't our Lord good to do things that way?!

As you study, plan, prepare, and pray, remember that the Lord does have a purpose for YOU. He asks us to be obedient and when we are, our lives are richer and happier. No matter how we analyze this phenomenon, it remains true. In the New Testament Jesus talks about giving us abundant life. He does just that every time we step out in faith and say "yes" to Him.

Hold on to that thought each month as you make your home visit. Since God is blessing all along this journey, slow down, savor, and enjoy each moment of the visit preparation and of the visit itself. Enjoy the preparation time as you read the Target Verse and stop and pray. See how God speaks to you as you embrace each of His attributes or characteristics.

While in the mentee's home, share with the mother your enjoyment and pleasure at being with her. Share your personal spiritual story and let your mentee see how God has been good to you.
